night, lived in the tenements No. 6, 8, other quarters to-day, having been driven from their former homes by the

No. 8, and the walls canted outward, accompanied by a crack of timbers and a falling of brick and mortar. The front wall was found to have sagged several ches and when inspectors from the Building Department came they declared the building was likely to fall. went down it would carry the rest of the row of five-story buildings with it, the inspectors said. The police, therefore, got busy and ordered the families out of each house. While they remained in the undermined house the lives of all were imperilled.

The tenants had to depend upon the kindliness of neighbors for shelter for the night. None were allowed to move their belongings because of the threatened danger.

Building Department workmen began shoring up No. 8 at daybreak, and when the building is sufficiently trussed the tenants will be allowed to remove their household goods.

FATALLY HURT IN SAVING HER DOLLIE

Little Freda Hamckburg Jumps from Window and Is

Dying.

With her dollie clasped in her arms, pretty little five-year-old Freda Hamckburg is dying in St. Mary's Hospital, Brooklyn, to-day. When the last ark of life has left the immature framethe kind-hearted surgeons confess there s no hope for the child-Freda will have liven up her life virtually for her doll. Playing at the second-story window of her home, No. 1631 St. Mark's avenue, Brooklyn, she placed the doll on the sill of the open window so it "tud det fesh air like Toney Island," as she expressed it. A puff of wind prostrated the doll, and Freda in great fear reached to save it from falling. She lost ner balance and fell out.

The doctor summoned shook his head as he lifted Freda in his arms. Ignored, dollie, the cause of Freda's awful fall, lay in soiled attire where it had dropped. Freda opened her eyes. "My dollie, my dollie," she murmured. Placed in her arms, Freda clasped the thing of rags and sawdust and again became unconscious.

The surgeons at St. Mary's Hospital, whither the doll's suffering little mother was removed, said that Freda could not survive. the sill of the open window so it "tud

A REMARKABLE PERFORMANCE.

The "Pennsylvania Special" is not only scheduled to make the run between New York and Chicago in eighteen hours, but it actually performs the deed with a precision that is phenomenal.

During the fifty-three days from March 21 to May 12, inclusive, it arrived in both Chicago and New York exactly on the minute every day but three in each direction. On those dates it was late only two, four, five, ten, thirteen, and thirty-nine minutes respectively.

Such a record means that experienced and skilful enginemen drive the train, that despatchers and signalmen are ever alert, and that well-trained maintenance-of-way men are keeping the nine hundred and eight miles of track in perfect condition. It means that the passenger between New York and Chicago on the "Pennsylvania Special" is practically sure of reaching his destination on time. Regularity of schedule is a most important consideration. It enables business men to keep their engagements in either city, and to get the benefit of an eighteen-hour schedule.

If you want to get to Chicago in eighteen hours take the "Pennsylvania Special," which leaves New York at 3.55 P. M. and arrives Chicago 8.55 A. M.

hipped to us daily in refrigerator cars by fast freight express. Being ept at a cool, even temperature they reach us in perfect condition and are entirely different from the "cheap" new laid eggs shipped by the ordinary method. You can buy these "cheap eggs" elsewhere at ill kinds of low prices, but we don't handle them. They are un-

able and dear at any price. Our carefully selected refrigerator-shipped eggs are the best to be had—and this week at 15 for 25c, are most unusual value. When you buy from the nearest "JAMES BUTLER" STORE, you are taking the shortest, quickest and safest route from the nest to your table. Every egg is guaranteed sweet and fresh.
